

## IN MEMORIAM.

ON THE DEATH OF FRANK ROBERTSON, OF LONG VALLEY, CAL., BY A FRIEND.

Alone upon that frozen ground,  
So sad a tale he met;  
No friendly faces gathered round,  
No eyes for him were wet.  
And where his horse went home,  
Which spoke a truth to plain,  
That in some spot as yet unknown,  
His rider he had slain.  
But through that night alone he lay,  
No neighbor knew it then,  
That out upon the lonely highway,  
An accident had been.  
That one young life so few would miss,  
This homeless earth was having;  
No father's touch, no mother's kiss,  
Around his heart-strings weaving.  
The old year coldly kissed his brow,  
The new year did the same,  
And softly said "Be happy now,  
In your bright world of fame."  
But many friends regret his fate,  
To-day he was not found;  
Regret they left him out so late,  
Froze solid to the ground.

## BROADBORN'S CONSISTENCY.

About that "Robbery" of the Building Fund—  
How the Governor Helped to do it.

Reno, January 14, 1878.

To the Editor of the Enterprise: In Governor Bradley's statement, which appeared in the Enterprise of a late date, in reply to Controller Hobart's communication relative to State finances, his Excellency makes the following assertion relative to the Building Fund:

First—It was raised under a special law to erect prison buildings at Reno. It cannot be legally touched for any other purpose so far as State finances are concerned. So far as any general use of it is concerned it is sacred as the money in the State School Fund. Second—That the Legislature borrowed and diverted to the General Fund \$65,515 in Building Fund money. Third—To divert any of the Building Fund money is robbery.

At the last session of the Legislature a bill was passed and approved by Governor Bradley, of which the following is the text:

"Section 1.—Whatever unappropriated money there may be in the State Building Fund on the 21 day of March, 1877, is hereby transferred to the General Fund of the State.

"Section 2.—Whenever the State Controller is officially advised of the amount of money appropriated out of the State Building Fund, it shall be his duty to notify the State Treasurer of the amount of such appropriation, and that any balance remaining in said State Building Fund is transferred to the General Fund of the State." [See Statutes, 77, p. 132.]

In his communication above mentioned the Governor says in plain language "to divert any of the Building Fund money raised to erect a prison at Reno is robbery." In the face of this assertion the record shows that on the 21 day of March, 1877, the Governor approved the bill transferring nearly \$70,000 from this sacred fund to the General Fund. According to the Governor's idea at the present time it is robbery to use that fund for purposes other than that for which it was raised. If it is robbery at this time to touch the money in the Building Fund was it not so in March last when his Excellency unhesitatingly signed the bill above mentioned?

"Oh, consistency, where is thy jewelry?" The people of Reno are somewhat interested in the Prison Fund business, and are inclined to receive the Governor's statement regarding it as a bait to catch our votes next November, for the reason that the old gentleman seems to be very solicitous about the fund at present, and yet but a few short months have passed since he signed a bill robbing it of \$70,000 without hesitation.

RENO.

## A NEW PARTY.

The Winnemucca Silver State has the annexed information concerning a new departure in political circles:

It is getting noised about that a new party, the fundamental principles of which are devotion to the interests of the working classes and opposition to Chinese, is being organized throughout the State. We have been informed, though not what might be considered authentically, that branches have been established at several points in the State, and that hundreds of men have subscribed to the platform of principles, which pledges opposition to all candidates for office who are known not to be in sympathy with the movement. It is even intimated that the organization may place State and county tickets in the field at the next election, and possibly carry the State, or at least elect the candidates whom they may endorse. As yet but little is known to the general public of the strength of the organization; but it is hinted that its platform and its motives will be made known in due time.

Russia has ordered 42 more gunboats, to be completed by the middle of April.

## AMERICAN STATEMEN'S WEALTH.

Gen. Grant's long absence in Europe has called attention to his pecuniary resources, and to the wealth of the Presidents who have preceded him. Gen. Grant suffered a good many losses within the latter part of his administration, but has income enough probably to live moderately without annoyance. His children who are married are able to take care of themselves, and the younger boys are certainly bright enough to do it. But this was not true of all the Presidents. Jefferson died rather poor. Congress purchased his library at a very extravagant price, and without that it is said he would have found it very difficult in the last years of his life to have subsistence. Madison saved considerable money out of his salary and died quite rich. Congress paid his widow \$30,000 for his manuscripts. James Monroe died poorer, probably, than any other President. He had absolutely nothing, and was buried through the charity of his friends. John Quincy Adams was always thrifty and prudent, and left quite a fortune. His heirs own considerable property in Washington to-day. Martin Van Buren died rich. He always kept his eye open for the main chance, and pinched every penny he got hold of very closely. He spent scarcely anything for politics. Daniel Webster, although never President, spent a sum of money which would have been equal to a large fortune, the result of his professional labors and of his political work. He left a little estate to his children, amounting to perhaps \$20,000, while he owed his friends more than a quarter of a million. Henry Clay, who was never rich enough to entertain very much in Washington, managed his affairs very prudently, and left an estate estimated at about \$100,000. Polk, always economical in office, saved \$50,000 out of his term, and left to his heirs \$150,000. John Tyler was a most thrifty person in the Presidential office. When he entered upon it he was a bankrupt, and he saved money in it, married a rich widow and died rich. Zachary Taylor left perhaps \$200,000. Millard Fillmore was wealthy and left his heirs a considerable sum. Ex President Pierce died leaving an estate worth not over \$50,000. Buchanan left but a moderate fortune. Hayes is rich, and is saving money on a \$50,000 salary.

## THE CASE OF PACHECO.

It is reported that the Sub-Committee to which the contested seat of Pacheco and Wigginton was referred, will report in favor of the latter. The public is prepared for almost any decision since Patterson was admitted to the House over Belford from Colorado, though the former had only a scattering vote of about 2,000, against 10,000 for the latter. Indeed, it is becoming the rule that nobody who contests a seat against a member of the majority in any legislative body, has the least chance of success.

It must be admitted that the Republicans have been guilty of some gross injustice in this matter. They have on many occasions taken into consideration the good of the party rather than what fair dealing required at their hands. But no ruling near so bad as that which excluded Belford, or which it is now said will exclude Pacheco, has ever been rendered by them. As the case was made up before it was transferred to Washington, there was no doubt in the mind of any fair man that Pacheco was entitled to the seat. In fact, there was a decision of our Supreme Court to that effect, though the majority of that tribunal is Democratic.

In striking contrast with this illiberality was the recent admission to the Senate of Eustis of Louisiana. There was not much doubt of his right to the place. But it was plain enough when he presented his claim that his admission would severely reduce the Republican majority, already very much weakened. But, nevertheless, justice was done in his case, most of the Republican Senators voting to give him the seat.

But there is one consolation in this injustice, if it should be consummated—it will not do much good to Wigginton politically or socially, beaten as he was in a strong Democratic district. His success will end his political career. But the people will right Pacheco. If he is ousted he will have a seat in the next Congress, and that is as certain as any future political event can be.—S. F. Bulletin.

We have the word of Lieutenant Governor Adams, who ought to know, that Governor Bradley is a candidate for a third term. A special committee, composed of Mr. Private Secretary Garrard, is shortly to be appointed to gather up and burn all of the old Democratic platforms containing anti-third term planks. It will also be in order when the State Convention meets to adopt a resolution declaring that the anti-third term planks of the last seven or eight years were merely inserted "to catch votes." Such, at least, would be the honest way to do the business.—Eureka Sentinel.

## THE COMSTOCK.

Immediately upon the heels of our last regular weekly report came a tumble in stocks which was as lively and disastrous as it was unexpected. Alta did it, and it is not necessary here to recount the aggravating particulars to any great extent. On Wednesday, the date of our last report, Alta stood as high as \$29 per share, with every prospect of a still further rise, but it closed that evening weak and declining. The next day it was still worse, and a regular panic set in, culminating on Friday, with the stock as low as \$7 per share. Disappointment in the expected ore development at the 1150 level, just being reached by shaft and drift, seemed to be the cause, but the trouble really consisted in the fact that the outsiders, the general public, had expected too much, and set the price of the stock too high; fully double what it should have been. The trouble in Alta very naturally affected the entire list, aided by the recommended decrease of dividends in Consolidated Virginia. Since then the market has revived considerably. Ophir is up again on the strength of prospective developments to be made on the 1300 level shortly, work being fully resumed at that point. The Alta ore development is a good one notwithstanding all prejudice and trouble to the contrary, and will so be proven to be in due time. For the last two or three days hired fighters have been lying on their arms on both sides of the point of connection about being made between the Alta and Justice. This disputed ground is included in the famous "one dollar deal" given by the former Trustees of the Justice to the Alta. No fighting or killing has been done as yet, although rumors of the same fill the air to day. A compromise of the matter will doubtless be arrived at, and the trouble be settled as it should be in the courts.—Gold Hill News of the 16th.

## AFFECTING.

While the Board of Pardons were in session at the Governor's office this morning, a very affecting scene transpired. The case of Stephen H. Winnie, a young man sentenced from Eureka county to four years' imprisonment for the crime of burglary, was being considered on petition for pardon. Numerous documents were produced bearing witness to the young man's previous good conduct, and finally the letter of his aged mother. It was a beautiful letter, filled with that love that only a mother can bear toward a son when shame and adversity has overtaken him. She pleaded nobly, told how her boy had always pursued an upright life; he had wandered off in pursuit of work, and finally that she received the cheerful news that he was on his way to the parental home; that he was overtaken by adversity, and in the moment of despondency was tempted by the devil through the agency of wicked men to commit a crime—the first in his life. One could fancy he saw the distressed mother pleading and looking towards heaven as this passage was read: "Gentlemen, he is my only son—the staff of my declining years. Return him to his mother's arms and a just God will bless you." There was not a dry eye in the room, and Judge Hawley was so affected that he was unable to pursue the reading of the document for several minutes. The mother's pleading was not in vain. The Board, after a few minutes' deliberation, pardoned the man. Let Stephen return to his good mother, turn over a new leaf, forget the past, and become a man worthy of such a mother.—Carson Tribune, 14th.

HE CAME BACK.—Governor Duval, of Florida, was the son of a poor Virginian, a stern, strong, taciturn man. The boy was a huge youth of fifteen. At the cabin fire, at bed time, according to the custom of putting on a back log, the old man said, between the whiffs of his silent pipe:

"Tab, go out and bring in that gum back log, and put it on the fire?"

Tab went out and snatched the log. He knew it was no use explaining that it was too heavy, nor prudent for him to return without having it on his shoulder. His little sister passing, was not surprised that he requested her to bring out the gum and powder horn, as a possum or coon might have passed, or the brother might have seen bear signs. She brought the gum and Tab started. He found the way through the woods into Kentucky in 1791. After an absence of eighteen years he was elected to Congress. A man of immense size and strength, he started for Washington, going by the way of his old home, to see the folks who had long since given him up for dead. Entering the little cabin door near bed time, he saw the identical gum log. He shouldered it, pulled the latch string and with his load stood before the old man, pipe in mouth, as quiet as usual.

"Here is the gum back log, father." "Well, you've been a long time getting it—put it on the fire and go to bed," was the reply.

## PROVISIONS.

## NEWS OF THE MORNING.

The President is preparing his special message on the Chinese question to be sent to Congress shortly.

The Workingmen of Oakland have nominated J. W. Barnes as a candidate for State Senator to fill the vacancy occasioned by the death of Nathan Porter. They refuse any compromise with the other parties. Barnes is a carpenter by trade, and is said to have had some practice as a public speaker, and stumped Alameda county during the Presidential election.

An enthusiastic meeting has been held in Indianapolis by the silver advocates.

Secretary Sherman favors the popular loan scheme. At a Cabinet meeting, it has been resolved to advise the popular loan.

Both houses of the California Legislature have passed a concurrent resolution asking Congress to provide a new Postoffice for San Francisco. Also a resolution asking Congress to amend legislation asking the time between the election of Presidential Electors and the date of casting the vote for President.

Senator Davis submitted a concurrent resolution to the California Senate, the day preceding that the great railroad corporations were practically beyond the reach of competition, and urging the Congressional delegation to also the support of government ownership of the transcontinental railroads.

At the annual meeting of the California State Board of Agriculture, held in San Francisco on Wednesday, Supt. Fair reported that the year's product had been \$15,925,579.27—of which \$3,386,719.17 was gold. The sum paid for wages was \$776,362, and \$161,537.96 for taxes. He did not recommend a cutting down of the dividends.

Pacific Coast Congressmen had an interview with Secretary Fair on the 16th inst. during the Convention. He is a fair and candid man, and will endeavor to represent the interests of the Six Companies in the coming of a stubborn fight in Congress against the legislation.

The inauguration of McClellan as Governor of New Jersey on Tuesday was an imposing affair.

General Adolphus King, Humboldt, to follow the footsteps of his illustrious father.

The Senate Committee on Foreign Relations took Surgeon's bill with a view of assigning a time for the consideration of the Chinese question, but postponed action until the arrival of Chinese agent, Col. Bee, who is en route to Washington.

Servia's peace claims are. The independence of the principality, the cession of Old Servia and indemnity for the Turkish devastations in the last war.

GEORGE H. PENDLETON, Senator elect from Ohio, was born in Cincinnati, July 25th, 1825, and is a lawyer by profession. He served in his State Senate in 1854 and 1855, and was elected a Representative from Ohio to the Thirty-fifth, Thirty-sixth, Thirty-seventh and Thirty-eighth Congresses serving on several Committees and with considerable prominence. In 1864 he was nominated for Vice President of the United States, on the ticket with George B. McClellan for President. In 1866 he was a delegate to the "National Union Convention," at Philadelphia. Since then the gentleman has been engaged in private affairs, but never anything politically but an ardent Democrat.

REVISION OF THE JUDICIAL SYSTEM. Senator Coulting has introduced an important bill to revise the judicial system of the United States. The bill has been carefully prepared and provides for the election of a Court of review in Judicial Circuit, to consist of a Circuit Judge and several District Judges, but no Judge shall sit in review of himself. The first Circuit shall be Boston, second New York City, third Philadelphia, fourth Richmond, fifth New Orleans, sixth Louisville, Kentucky, seventh Chicago, eighth left blank, ninth San Francisco. The bill also provides for additional District Judges, the number to be determined hereafter.

## THE PACIFIC RAILROADS AND THE GOVERNMENT

It does seem as though there was too much delay in establishing proper relations between the Government and the Overland Railroads, and that an unnecessary amount of "red tape" was being used in determining the exact relations existing between the two. For years the subject has been a vexed question, and, apparently we are no nearer a solution than we were years ago. At every session of Congress some new plan is mooted, but by the time Congress adjourns we are as far from legislation upon the subject as at the commencement of the session the railroads succeeded in preventing anything likely to come in conflict with the very peculiar views they happen to entertain. The Union Pacific Company owed to the Government on the 1st of November, \$27,236,512 principal and \$10,749,618 interest, or a total of nearly thirty-eight millions of dollars. The Central Pacific, at the same date, owed the Government \$25,885,120 principal and \$12,510,147 interest, or a total of nearly thirty-eight and a half millions. Against the companies' claims against the Government for transportation amounting in the case of the Union Pacific, to \$2,890,632 and for the Central Pacific to \$1,158,631. The bonds of the companies—second mortgage bonds—having about twenty years to run and, by a decision of the United States Supreme Court made in 1875 the companies cannot be required to pay interest on their bonds until these mature. By law, however, one half the transportation accounts and at least five per cent of the net earnings of the roads are to be annually paid to the payment of the bonds. The one half the transportation dues has been withheld by the Government and applied to decrease the companies' indebtedness, and is deducted in the totals given above. The five per cent on net earnings the companies have not paid, and the Government is suing them for this which amounts, with interest added to nearly three millions and a half for the Central Pacific. Upon the maturity of the bonds in 1887 their indebtedness to the Government will be between eighty and ninety millions each. We trust that this session of Congress will witness the passage of some equitable law which will secure to the Government what is justly due from the corporations returned to.

## POLITICAL MANIPULATORS.

The following we take from the *Liberty Bell* an Eastern Nevada paper. No more machine politics! Hereafter let the office seek the man and not the man the office. Tired and disgusted with the corruptions of party, the people propose driving away these machine politicians and place honest and capable men fresh from the people in their stead. "Ye gods, hear the blowhard blow!" It is amusing to read such claptrap from a section of the State which has produced more political manipulators and machine politicians than all of the rest of the State combined. 'Tis true that we have a Col. Billy Wood and a Deacon Parkinson in this part of the State, but look at the great East. There are Cassidy, Moore, Dennis, Wallace, Cleveland, Lied Hart, M. S. Thompson, Joe Woodworth and a host of others, who by their manipulations have secured nine tenths of the State offices and shaped our Legislatures for the last twelve years. Talk about political corruption ye vultures of the great East! It is a wonder that the Almighty still permits you to roam the earth unstamped with the mark of Cain.

NEW YORK *World*. "There is one phase of the Solid South question that will come up in a form interesting to Republicans in about two years and a half from now. At the next National Republican Convention something over a third of the delegates will come from States, where, according to Republican authorities the Republican party is dead as a nail in a door. Shall Mississippi, where the Radical organization has gone to fragments and no one cares to save the pieces, outvote the State of Blaine, and Georgia have rather more than twice the voice of Mr. Edmund's State in deciding who shall be the Republican nominee in 1880?"

A man named Mannel Azeredo from Belmont, recently had his right foot amputated, it having been frozen on Christmas night and gangrene set in subsequently. He is now in the Sacramento Hospital.

## AN APPEAL TO THE INDUSTRIAL CLASSES FROM THE NATIONAL LABOR PARTY

The National Labor Party have issued an appeal to the industrial classes of the Pacific Coast for support. The document holds that any other than a peaceful solution of the labor and Chinese questions will leave the working classes in a worse condition than at present. As bloody revolutions accomplish little or nothing for the toiling masses, the party recommends as its motto "Peaceable revolution at the ballot box." The capitalists and monopolists are appealed to for assistance in the work, the appeal holding that it is better for them to encourage the masses to be self supporting, and to live and prosper mentally and financially, than by a system of land and franchise grabbing laws to drive them into poverty and crime, and finally, when all other resources fail to force them into riot and rebellion to free themselves and their progeny from slavery. The appeal closes as follows:

"In consequence we would say to the producing classes, 'The cause is yours; there are no Caesars in our party; come, rally for the cause of freedom! We are threatened with a form of slavery in the coming traffic worse than any the Southern States ever offered us. Fellow workmen! Be on your guard! One tyrant is no better than another, he who tells you that you must shout the Shillabulet in a party before you can organize a Workingmen's Club, is no less a tyrant as to break up workingmen's meetings is no friend of liberty, but his name ought and will stand side by side with those of other tyrants who have sought by force in one form or another, to suppress free thought and free speech. We are fighting, oppressive monopolists and when any one claims the monopoly of organizing workingmen's clubs, this is the first monopoly to be destroyed. Unity is above all things desirable, but before unity can be intelligible and justice must reign among the workers in the cause. Let capable and experienced men take the helm. Follow with us, choose them yourselves but be very careful in your selection. In every case apply the Jeffersonian test—Is he honest? Is he capable? We call upon you, then, to rally around the banner of the National Labor Party not to build up or tear down men but to disseminate living and eternal principles, upon which rest the very pillars of liberty."

## MATTERS IN STILLWATER.

The following is far superior to anything yet concocted by the Sazerae Club. We copy from the *Enterprise*.

Mr. J. D. Baldwin, a gentleman of distinguished versatility is just from Stillwater the county seat of Churchill. He gives us a glowing description of the social and financial condition of that enterprising and highly prosperous portion of Nevada. Mr. Baldwin says there are 7,000 houses in Stillwater, 500 of which are school houses and 70 churches. There is the snug little sum of \$536,540 in the treasury of the county and there is but a single criminal to be cared for by the Sheriff and he is humane, lower him down a shaft 400 feet, and he is drawn out once a week to attend church. Mr. Baldwin also informs us of his honor as a gentleman that the orange trees are in blossom in Stillwater and that eighteen crops of alfalfa have already been cut since the first of last month. The town abounds in beautiful women, and Mr. Baldwin counted 13,000 children in the public schools 262 of them belonging to Asa Canyon and a single fragile but prolific mother. Mr. Baldwin requested us to interview him two or three hours concerning what he saw during his late visit to Stillwater, but we have concluded it best for his reputation as well as our own to stop right here.

THE PROPOSED SETTLEMENT WITH THE PACIFIC RAILROADS.—The Senate Judiciary Committee met Saturday to receive the report of the subcommittee on the subject of the various pending propositions for the creation of sinking funds for the repayment of government advances by Pacific Railroad Companies. The subcommittee delayed the report, in accordance with a request made by the attorney of the Central Pacific Company, that no action be taken before Vice President Huntington's return from the West, which is expected by the 25th instant. The subcommittee are understood to be opposed to the proposition already made by the companies, and it is said Huntington will, upon arrival, submit another, the nature of which is not yet known.—*Washington Dispatch* of the 14th.

It is told of President Hayes army experience, that when wounded, he fell into the hands of a kind Southern family and had both a Federal and Confederate surgeon. The Northern surgeon wanted to cut his patient's arm off, the Southern man resisted and saved it. It is said that the President has retained friendly relations with his entertainers ever since, and has given an office to a member of the family.

CONGRESSMAN WREN has introduced in the House a copy of Sargent's bill to restrict Chinese immigration, by prohibiting the admission of more than ten Mongolians on any one vessel.

## DESERT LANDS.

An Important Ruling by Commissioner Williams

The Eureka *Republican* says the Receiver of the Eureka Land Office being at a loss to know whether the sections held by the Government within railroad limits, and described as "desert lands," were to be held at \$2.50 or \$1.25 per acre, sent the following telegram:

EUREKA, Jan 4

Commissioner General Land Office, Washington, D. C.—Can lands be filed upon under Desert Act within area of railroad grants at minimum price? Respectfully,

J. J. WORKS, Receiver

To this the following answer was received:

DEPARTMENT OF THE INTERIOR, GEN. LAND OFFICE WASHINGTON, January 4, 1878.

Register and Receiver, Eureka, Nevada. Gentlemen.—In reply to telegram from Receiver of this date you are advised that an Act of Congress approved March 3, 1877 providing for the sale of Desert Lands in certain States and Territories is held by this office to apply to all public lands in the States and Territories mentioned, which, within the description of the law, are Desert Lands, whether such lands be within or outside the limits of a grant to a railroad company.

Of course, however, it does not apply to lands which have been granted to a railroad or other corporation nor to lands reserved for the satisfaction of such grants or for any other purpose.

J. A. WILLIAMSON, Commissioner

Of course this settles the whole business, and now within the States and Territories covered by the Act—and it covers Oregon, California, Nevada, Utah, Washington, Colorado, Idaho, New Mexico, Wyoming and Dakota—a man may claim a homestead of 80 acres within railroad grants, precept 160 acres at \$2.50 per acre or take 640 acres of desert land at \$1.25 per acre.

## THE RENO PRISON.

A friend who was taken through the interior of the prison at Reno, informs us that he met Rover—the brutal murderer, who has made so many endeavors to escape the law—quietly walking up and down the aisles on hall with a chalk pipe between his teeth, seemingly as content as a clam at high water, while surrounding a table in another portion of the palace (?) sat a squad of victims contentedly playing cards "just to keep their hands in they remarked, so that shortly when released they could be clucked by outsiders." In answer to the question if they lived and fared well they answered in the affirmative adding that they had as good as was needed or wanted. From this it will be seen that there is not much punishment to criminals there many of whom deserve the closest confinement and food only sufficient to sustain life. There is more torture in one hour's confinement than one week's punishment such as is given and we believe this same suggestion might be heeded I keep many a Luckee vagabond from Nevada's prison walls.—*Los Angeles Herald*.

THE WORKINGMEN.—The working men of this country ought to rule it and they will. They are a majority and our theory is that the majority must rule. The leisure class among us is almost insignificant in numbers. Our political and social system does not tend to the creation of such a class. Hereditary titles and places are unknown to our institutions. Having no law of entail, great wealth cannot be inherited except in rare instances. This is a nation of workers. To say that it is necessary to resort to violence in order to secure the rights and protect the interests of workingmen is to accuse the masses of the American people of the grossest cowardice and imbecility. Such silly talk is an insult to every intelligent workman in the land. Surely this community has had enough of illogical twaddle and incoherent nonsense.—*Horn Newspaper*.

WHAT WE CONSIDER.—In the human body there are five pounds of phosphate of lime, one of carbon, one of lime, three ounces of fluoride of calcium, three and a half ounces of common salt all of which have important offices to fill. Not one of them must be allowed to fail in quantity below the normal standard. If the lime fails, the bones give way, if the salt is withheld, the blood suffers and digestion is impaired, if phosphorus is sparingly furnished, the mind is weakened and the tendency is toward idiocy.

## CAUTION NOTICE

THE PUBLIC are hereby cautioned against purchasing the gold and silver mining claims the same having been sold this day to pay delinquent assessment No 13 levied October 11th 1877.
